

Environmental Education Training
Wolf Creek National Fish Hatchery Workshop Series

WHAT: Biologist-in-Training (BiT) Workshop Event!

Based on an aquatic theme, the Wolf Creek NFH is excited to be launching a new endeavor known as the Biologist in Training (BiT) program. The program centers on a booklet that includes 5 activities geared towards teaching kids to use their observation skills while in the outdoors. Completion of the booklet activities is also flexible as the activities can be completed at the hatchery, at home, etc.

For teachers looking to incorporate the program into their classroom needs, BiT also includes supplemental curriculum binders full of additional activities that support the booklet's 5 main activities. These activities also serve to meet Kentucky's educational curriculum guidelines. Home school groups, Scouters, 4-H leaders and more will also find the activity binders helpful and useful when completing the BiT booklets.

For the first time ever, Wolf Creek will be hosting a facilitator training for the BiT Program, thus enabling educators, whether formal or non formal, the chance to utilize BiT with children. So if you or someone you know would like to learn more about BiT, be sure and register below! It's sure to be a fun-filled day of hands on learning and is suitable for a wide audience, including teachers, 4-H leaders, Boy/Girl Scout leaders, etc.

WHEN: Friday, February 19th, 2010
9:00am - 3:30pm CST
